Smiley face icon, Heart icon, and lines for writing.

Create your family tree! We've started you off with your immediate family, begin by writing each member's name in the space next to the smiley face.

Branch out to extended family like grandparents, uncles, aunts and cousins and write their names too!

What makes everyone happy? Map out everyone's interests and loves under their names too (next to the heart)!

If you aren't sure what to write, interview your family members and find out more about them with the help of your parents!
